## SECONDARY INSTITUTIONS

### PUBLIC HIGH SCHOOLS

The following list contains the registered public high schools, industrial high schools and high school departments of union free and central schools. The list is alphabetical by the name of the cities and villages in which the schools are located. The following symbols indicate the grade for which the schools are approved: M1, middle grade, one year; M2, middle grade, two years; M3, middle grade, three years; H, high school; thus showing registration for one, two, three or four years, respectively. The symbol H6 indicates that the school is registered as a six-year high school covering the seventh through the twelfth year. The designations Ind. (2 yr), Ind. (3 yr) and Ind. (4 yr) indicate industrial high schools registered for two, three and four years, respectively. The letter C in the Grade column designates central school districts. The letters Cd designate central high school districts.

High schools in city and village superintendencies are indicated in the Superintendency column. Schools under district superintendents of schools are designated by the county and number of the supervisory district. Thus, Albany 1 indicates the first supervisory district of Albany county. The names of the district superintendents are listed on page 21.

## PRIVATE SECONDARY SCHOOLS

The following symbols indicate the grade for which the schools are approved: M1, middle grade, one year; M2, middle grade, two years; M3 middle grade, three years; H, high school; thus showing registration for one, two, three or four years, respectively. The symbol H6 indicates that the school is registered as a six-year high school covering the seventh through the twelfth year.

The denomination of sectarian schools is given for schools operated under church control.
